

*"...and when I sicken,
then He (Allah) heals
me." Qur'an 26:80*

Mission Statement:

Preserve, support and advance the professional practice of faith community nursing in Oklahoma.

Vision Statement:

FCNA OK will be recognized so that faith community nursing will be accessible to all people of Oklahoma.

The goals for FCNA OK include:

Promote the standards for foundation training and ongoing education and spiritual formation among faith community nurses.

Develop and support statewide Faith Community Nurses to advocate health issues, collaborate with other health professionals, and to establish a network of faith community nurses.

FCNA OK meets quarterly on the second Tuesday of January, April, July, and October from 10:00 a.m. to 3:00 p.m. Call for location and more information.

"Jesus sent them to proclaim the kingdom of God and to heal the sick". Luke 9:2

A glad heart makes for good health, but low spirits sap one's strength." Proverbs 17:22

**Faith Community Nurses'
Association of Oklahoma**

Caring for the Mind, Body, and Spirit

To share practice ideas for faith communities and to nurture personal spiritual development for faith community nurses of all faith traditions.

Tel: 405-458-9035

What is Faith Community Nursing?

Faith Community Nursing is the intentional integration of the practice of faith with the practice of nursing so that people can achieve wholeness in, with, and through the community of faith in which Faith Community Nurses serve.

This statement was completed at the 14th annual Westberg Parish Nurse Symposium in September 2000. 600 participants contributed to its development.

"Healing, according to Maimonides, is the act of repairing both the defects of the body and the turmoil of the mind." Health & Medicine in the Jewish Tradition, p. 42

What is a Faith Community Nurse?

Faith Community Nursing is recognized by the American Nurses Association as a specialty practice area for registered nurses who have completed an endorsed training program. In some communities, Faith Community Nurses are called 'Congregational Health Nurses'. This is an independent nursing practice which has "intentional care of the spirit" as its function and does not involve 'hands-on,' task-oriented nursing care. Faith Community Nurses can be found in congregations of every denomination and faith tradition in rural, urban and suburban settings. The nurse actively promotes wellness, wholeness, and preventive health. Faith Community Nursing originated in Illinois during the 1980's; over 10,000 Faith Community Nurses are a part of an international movement. FCNA OK website: fcnaok.org.
